PROFESSIONAL PROFILE

Information Systems Engineering graduate, dynamic and proactive, with experience in Full Stack development, data analysis and cleaning, process automation, and artificial intelligence. Skilled at leading continuous-improvement projects, managing technology infrastructure, and deploying applications in enterprise environments.

WORK EXPERIENCE

Nexus Soluciones S.A.S. B.I.C

Full Stack Developer (February 2026 – March 2026, Remote)

- End-to-end SaaS platform development for electronic signatures, clients, plans, and online payments.
- Backend with NestJS + Prisma ORM + PostgreSQL, modular architecture with JWT authentication.
- Frontend with Next.js 16 + React 19 + Tailwind CSS + shadcn/ui — dashboards, dynamic tables, and metric visualization with Nivo.
- AWS S3 integration for document and digital-certificate storage.
- Integration with Payphone payment gateway and a discount-code system.
- Modules: users, clients, plans, transfers, queries, digital signatures, signed documents, discount codes, notifications.
- Deployed to Railway with Docker.

Ministry of Transport and Public Works

Full Stack Developer (December 2024 – June 2025, Hybrid)

- Technology infrastructure survey: ports, network points, access points, interfaces, equipment, racks, and switches.
- Internal application (Java backend, JavaScript frontend) to register and visualize infrastructure associated with employees and equipment.
- Coordinated the "Ecuatorianos en Acción" team to ensure accurate data collection.
- Excel data cleaning and preprocessing with Jupyter Notebooks (.ipynb).
- Published and maintained the web app on a corporate server.

Ministry of Telecommunications

Full Stack Developer (July 2024 – September 2024, On-site)

- Bug fixes and optimization on the SIADI system, managing and improving database performance.
- Configured the SIADI system using React and TypeScript.
- Docker container administration for backend and frontend, ensuring consistent deployments.
- Process automation with Excel and Word macros.
- Developed two websites: SIADI 2.0 and the Citizen Statistics System, using JavaScript, HTML, CSS, and PostgreSQL; deployed on AlmaLinux with SSL certificates.

Helios Trader Group LLC

Financial Markets Specialist (January 2021 – January 2022, Remote)

- Passed the EloOps selection test and was assigned to manage a live investment account.
- End-to-end account management, applying my own risk-management strategy to secure steady monthly performance.
- Prepared monthly performance reports and adjusted strategies based on risk and return metrics.

EDUCATION

- Information Systems Engineering, Pontifical Catholic University of Ecuador / 2022 – 2026. Graduate.
- Unified General Baccalaureate, Santo Domingo de Guzmán School – 2008 – 2021.

CERTIFICATIONS

- AWS Academy Graduate – Cloud Foundations, Amazon Web Services (AWS), April 2026.

SKILLS

- Languages/Frameworks: Java, JavaScript, TypeScript, React, React Native, Flutter, HTML5, CSS3, Spring Boot, Next.js, Tailwind, Radix UI, shadcn/ui, NestJS.
- Databases/ORM: PostgreSQL, MySQL, Oracle, SQL Server, Firebase, Prisma ORM.

- Cloud/DevOps/Containers: Docker, AlmaLinux, SSL, AWS S3, Railway.
- Automation/Data Analysis: Advanced Excel, Excel and Word macros, Jupyter Notebook, React Email, Resend, Zod, FFmpeg (audio/video processing), YouTube Data API v3, audiovisual production automation.
- Artificial Intelligence/ML: Python, scikit-learn, OpenAI API, NLP, Perplexity API, Whisper (STT/temporal alignment), TTS with voice cloning (Chatterbox), LLM content-generation pipelines.
- Web Scraping: Python, BeautifulSoup, Selenium.
- Soft Skills: Leadership, problem-solving, teamwork, adaptability.

LANGUAGES

- Spanish: Native.
- English: Intermediate (B1).
